

Monthly Report on License Agreement 2025-09 September, and Fiscal Year 2025 Summary

This report is in agreement with the terms outlined in Section 8.4 of the License Agreement between the City of Austin and Austin Pets Alive! with a focus on APA!'s impact on Travis County through our partnership with Austin Animal Center.

Austin Pets Alive! (APA!) is consistently the city of Austin’s largest partner in lifesaving. Our mission is to keep Austin No Kill by taking in the animals that have medical and behavioral concerns that the city cannot care for or treat. Since 2011, due to our partnership with Austin Animal Center to take the animals at risk of euthanasia, our city has been the largest No Kill city in the US.

APA! Intakes transferred from AAC:

In September 2025, 127 animals (*per APA! audited records*) were transferred from AAC to APA! for lifesaving care and placement. 103 of these (70%) were medically urgent transfers at immediate risk of euthanasia or death.

22 animals were born in APA!’s care to pregnant animals sent from AAC. Additionally, APA! took in 13 pets directly from owners within Travis county through the PASS program that should have otherwise entered AAC. This makes for 35 intakes diverted from AAC in September.

AAC - Cat Behavior	0

APA! Transfers from AAC as % of AAC Intakes

APA must: select a sufficient number of animals from the At-Risk List so that at the end of each year of the Term APA will have selected from the At-Risk List 12% of the total number of animals taken in by AAS during the preceding year.

Total AAC Dog and Cat Intake FY24	11,081
Transfer target for FY25 (12% of FY24)	1,330
Current FY25 AAC->APA! Transfers	1,720 (129.3%)
Current 12-month rolling average of transfers as % of prior year intake	15.5%

Impact of APA! Transfers on AAC Live Release Rate for Month

As APA! takes animals directly from AAC’s At-Risk list, this section calculates what AAC’s LRR would be if these animals were euthanized or died with AAC instead of transferring to APA!.

Reported AAC Dog & Cat Live Release Rate			94.57%
At-Risk Transfers to APA!:	Animals with < 2hr deadline	87	84.53%
	Animals with >2, <48hr deadline	32	80.89%
	Other At-Risk animals (behavior, etc.)	7	80.09%
AAC Live Release Rate without APA!:			80.09%

Survival Rates of AAC Medical Transfer Pets

This looks at the outcomes of pets transferred from AAC to APA! as medical cases in the month prior to the month of the report, to show their minimum 30-day survival rate.

Total Medical Cases Transferred (in August 2025)		
Status as of 10/3/24:	Adopted/Transferred Out	38
	In Foster	50
	In Shelter	5
	Deceased	14
Survival Rate		86.92%

Fiscal Year 2025 Summary

In Fiscal Year 2025, APA! **transferred in 1,720 animals directly from AAC**, exceeding the mandated target of 1,330 set out in the license agreement by 30%.

94% of those transfers were pulled directly from the At-Risk list and were at risk of euthanasia or death without APA!'s intervention. This includes the required populations of parvo-positive dogs (101), bottle baby kittens (747), and behavior program dogs (70), as well as an additional 448 medically-compromised animals and 158 pregnant and nursing animals.

These transfers account for 15.5% of all dog and cat intake into AAC during FY25, and 79% of all animals sent to AAC partners.
